Relevant Building Code clauses
- B1 Structure: Performance clauses B1.3.1, B1.3.2, B1.3.3, B1.3.4
- C3 Fire affecting areas beyond the fire source: Performance clauses C3.9
- D1 Access routes: Performance clauses D1.3.1(b)
- E2 External moisture: Performance clauses E2.3.2 (partially, roofs only, walls not fully as cladding is required)
- F4 Safety from falling: Performance clauses F4.3.1 and F4.3.4
- F5 Construction and demolition hazards: Performance clauses F5.3.1 and F5.3.4
- G4 Ventilation: Performance clauses G4.3.1
- G7 Natural light: Performance clauses G7.3.1 and G7.3.2
- H1 Energy efficiency provisions: Performance clauses H1.3.1

Statement on how the building product is expected to contribute to compliance:

When installed, along with additional components, the product contributes to the following provisions of the NZ Building Code:
- **B1.3.1, B1.3.2, B1.3.3, B1.3.4:** CLEVER CORE PANELISED HOME is fabricated to the structural requirements specified in the approved building consent documents and project requirements.
- **C3.9:** CLEVER CORE PANELISED HOME is fabricated to the fire requirements specified in the approved building consent documents and project requirements.
- **D1.3.1(b):** CLEVER CORE PANELISED HOME contains doors that provide an access route to the building.
- **E2.3.2:** CLEVER CORE PANELISED HOME is fabricated and finalised with roofs that prevent the penetration of water. The wall system is excluded as it depends on cladding to be fully compliant with this clause.
- **F4.3.1 and F4.3.4:** CLEVER CORE PANELISED HOME is fabricated with opening restrictors as specified in the approved building consent documents and project requirements.

- **F5.3.1 and F5.3.4:** CLEVER CORE PANELISED HOME is installed using safe methods of construction that ensure the safety of the workers and are in line with the goal of the company 'Protect'.
- **G4.3.1:** CLEVER CORE PANELISED HOME is fabricated as per design documentation that complies with ventilation requirements as specified in the approved building consent documents and project requirements.
- **G7.3.1 and G7.3.2:** CLEVER CORE PANELISED HOME is fabricated as per design documentation that complies with natural light requirements as specified in the approved building consent documents and project requirements.
- **H1.3.1:** CLEVER CORE PANELISED HOME is fabricated as per design documentation that complies with energy efficiency requirements as specified in the approved building consent documents and project requirements.

Limitations on the use of the building product:

- It should be noted that Clever Core products do not satisfy code requirements on their own but contribute to code compliant performance when installed in accordance with other components of a building project.

Design requirements that would support the use of the building product:

- The design of the product relies on the individual product statements and design documentation provided as part of the application for the building consent.

Installation requirements:

- Clever Core manufactures and installs its own products using experienced tradespeople (i.e. the purchaser of the product is not required to undertake any installation).

Maintenance requirements:

- The Clever Core product is subject to the Maintenance Schedule provided as part of the application for building consent and other related documents.

Is the building product/building product line subject to warning or ban under section 26?:

Yes [ ]   No [✔]

If yes, description of the warning or ban under section 26:
Date: 11 /12/2023
